### THE WATER PILLOW

This invention relates to pillows and more particularly, to a down pillow with a water hold.

It is, therefore, the principal object of this invention to provide a rich and extravagant ornamentation for the head to rest.

These and other objects, will be readily evident, upon a study of the following specifications, and the accompanying drawings wherein:

FIG. 1 is a perspective view of the present invention;

FIG. 2 is an enlarged cross-sectional view of FIG. 1;

FIG. 3 is a cross-sectional view taken along the phatom line of 2-2 of FIG. 2;

FIG. 4 is an enlarge end view of the side shown in place within the removable pillow cover.

According to this invention, a pillow, is shown to include a hollow rectangularity main body. 3

It is reinforced by means of a plurality and equally spaced together goose feathers 4 which are integral with the main body.

Material surrounding the inner periphery 3 of main body provides a means of receiving the water hold, which is of vinyl.

Inside zipper on outter periphery of open end 4 is to insure proper restraint of water hold.

Outside zipper on removable pillow cover 6 is a means of rendering the water pillow as a whole.
